MANITOBA POPULATION ESTIMATES - APRIL 1, 1999

	April 99	January 99	April 98
POPULATION	1,142,100	up 1,900	up 5,000

NET INTER-PROVINCIAL MIGRATION	**First Quarter**	**1999**	**1998**
		538	-707

Manitoba's total population was estimated at 1,142,100 persons as of April 1, 1999, an increase of 1,900 persons from the January 1, 1999 estimate of 1,140,200. Since April 1, 1998, Manitoba's total population has grown by an estimated 5,000 persons (0.4%), and our annual growth rate on an April over April basis ranks fifth place provincially. Canada's annual growth rate as of April 1, 1999 was 0.9%.

Manitoba's net interprovincial migration gain totalled 538 persons in the first quarter of 1999. This compares to the net loss of 707 persons in the first quarter of 1998. This is the first gain in net interprovincial migration since 1995, when Manitoba had a net gain of 45 persons in the first quarter. The last significant gain for Manitoba was in the fourth quarter of 1986, when we gained 444 persons on a net basis from other provinces. The 1999 first quarter gain continues the trend of lower net interprovincial migration losses observed in 1998 and throughout the 1990's.

Seven out of ten provinces recorded net interprovincial migration losses in the first quarter of 1999, only Manitoba (up 538), Alberta (up 5,641) and Ontario (up 4,471) showed gains. Manitoba's first quarter gain in 1999 was largely from Ontario (259), Saskatchewan (204) and British Columbia (136). There were no significant losses to any particular province; the largest loss recorded was 59 persons to Alberta.

QUARTERLY POPULATION STATISTICS REPORT

JULY 1999

OCTOBER 7, 1999

October 7, 1999

MANITOBA POPULATION ESTIMATES - July 1, 1999

	July 99	April 99	July 98
POPULATION	1,143,400	up 1,600	up 5,300

NET INTER-PROVINCIAL MIGRATION	January to June	1999	1998
		-209	-1,678

TOTAL NET MIGRATION	January to June	1999	1998
		1,199	-613

Manitoba's total population was estimated at 1,143,400 persons as of July 1, 1999, an increase of 1,600 persons from the April 1, 1999 estimate of 1,141,800. Since July 1, 1998, Manitoba's total population has grown by an estimated 5,300 persons (0.5%), and our annual growth rate on a July over July basis ranks sixth place provincially. Canada's annual growth rate as of July 1, 1999 was 0.9%.

Manitoba's net interprovincial migration loss totalled -209 persons on a year-to-date basis. This compares to the net loss of –1,678 persons in the first two quarters of 1998. Manitoba's second quarter loss of -747 persons was offset by the first quarter gain of 538 (which has not occurred since 1995, when Manitoba had a net gain of 45 persons in the first quarter).

Five out of ten provinces recorded net interprovincial migration gains in the first half of 1999. Prince Edward Island (up 118), Nova Scotia (up 295), New Brunswick (up 136), Ontario (up 11,309) and Alberta (up 13,498) all showed gains.

Manitoba gained mainly from Saskatchewan (251) and British Columbia (331) in the first half of 1999. However, losses to Ontario (-432) and Alberta (-476) outweighed any gains made in the first two quarters of 1999.

In addition to interprovincial migration there are three other forms of movement that influence total net migration. They are international migration, Canadian citizens returning from abroad and non-permanent residents. On a year-to-date basis for 1999, Manitoba's total net migration was 1,199. This compares to a net loss of –613 persons in the first half of 1998. A marked increase of 244 international migrants, along with the net increase of 99 non-permanent residents/returning Canadians and the rise in net interprovincial migration led to the overall increase in total net migration.

It should be noted that Statistics Canada has released revised population estimates for Canada, the provinces and Territories. The revised estimates cover the time period from January 1st, 1997 onward. This MBS report incorporates all revisions.

QUARTERLY POPULATION STATISTICS REPORT

OCTOBER 1999

DECEMBER 22, 1999

December 22, 1999

MANITOBA POPULATION ESTIMATES - October 1, 1999

	October 99	July 99	October 98
POPULATION	1,144,800	up 1,300	up 6,000
NET MIGRATION	**(January to October)**	**1999**	**1998**
	Interprovincial	-726	-2,387
	Total	1,715	-1,032

Manitoba's total population was estimated at 1,144,800 persons as of October 1, 1999, an increase of 1,300 persons from the July 1, 1999 estimate of 1,143,500. Since October 1, 1998, Manitoba's total population has grown by an estimated 6,000 persons (0.52%). Our annual growth rate on an October over October basis of 0.52% is the largest out of the last ten years and comparable to growth rates of 1993 and 1994. Canada's annual growth rate as of October 1, 1999 was 0.8%.

Manitoba's net interprovincial migration loss totalled -726 persons on a year-to-date basis. This compares to the net loss of –2,387 persons in the first three quarters of 1998. Manitoba's second and third quarter losses of –747 and –517 persons respectively, were offset by the first quarter gain of 538.

Four out of ten provinces recorded net interprovincial migration gains in the first three quarters of 1999. Prince Edward Island (up 537), Nova Scotia (up 864), Ontario (up 15,798) and Alberta (up 15,479) all showed gains. However, net losses were reported by Quebec (-12,790), British Columbia (-10,368), Saskatchewan (-5,066), Newfoundland (-3,097) and New Brunswick (–10).

Manitoba has gained mainly from Quebec (154) and British Columbia (110) in the first three quarters of 1999. However, losses to Ontario (-652) and Alberta (-665) outweighed any gains made in the first three quarters of 1999.

In addition to interprovincial migration there are four other forms of movement that influence total net migration. They are international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad. On a year-to-date basis for 1999, Manitoba's total net migration was 1,715. This compares to a net loss of –1,032 persons in the first three quarters of 1998. A marked increase of 517 international migrants, along with the net increase of 633 non-permanent residents/returning emigrants and the rise in net interprovincial migration led to the overall increase in total net migration.

With this release, Statistics Canada has revised the population estimates from July 1, 1996 to the present. New methodologies have been introduced for two components: emigrants and returning emigrants (previously called Returning Canadians). Revisions have also been made to the number of non-permanent residents, especially for 1999.

In addition, Statistics Canada has also introduced another component into the population estimates series. This new component, Canadians temporarily abroad, has been included in the MBS "Other" column on Table 1 along with non-permanent residents and returning emigrants.
